

Net Makine Technical Product Catalogue

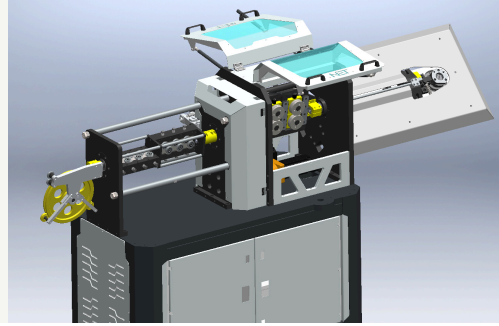

Wire processing machinery

Technical suitability is confirmed according to wire material, diameter, part geometry and production target.

2D CNC

Ø 3–10 mm; 90–95 m/min; CNC servo controlled

3D CNC

Multi-axis, part-specific configuration

Tel Doğrultma ve Kesme / Wire Straightening & Cutting

Cut-to-length wire production from coil

Hidrolik Tel Büküm Presi

Tonnage and tooling selected for the part

1 Ton Tel Kangal Açıcı

Motorised or non-motorised wire feeding

NGM-602 Tel Uç İşleme

Ø 1–5 mm wire cutting and end finishing

Technical quote: teklif@netmakine.com

Specifications are for preliminary evaluation. Final scope is stated in the written quotation.
